DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement filed 09/08/2005 has been considered.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 35-54 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 35, lines 5 and 6, "the first and second layers are substantially lattice-mismatched" is unclear as to whether it is being referred to the first and second layers are substantially lattice-mismatched **with respect to each other**.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 35, 37-39, 42 are rejected under 35 U.S.C. 102(e) as being anticipated by anticipated Fitzgerald et al. (6,039,803).

The applied reference has a common inventor with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not the invention "by another," or by an appropriate showing under 37 CFR 1.131.

Figure 1A of Fitzgerald et al. discloses a method of fabricating a semiconductor structure comprising the steps of providing a silicon substrate 12; epitaxially growing a first crystalline $\text{Ge}_x\text{Si}_{1-x}$ graded layer 14 over the Si substrate 12; epitaxially growing a second crystalline Ge cap layer over the first crystalline $\text{Ge}_x\text{Si}_{1-x}$ graded layer 14; wherein the first crystalline $\text{Ge}_x\text{Si}_{1-x}$ graded layer 14 and the second crystalline Ge cap layer are substantially lattice-mismatched since they are formed of different materials. It is inherent that the surface of the first crystalline $\text{Ge}_x\text{Si}_{1-x}$ graded layer 14 is planarized because the roughness surface of the first crystalline $\text{Ge}_x\text{Si}_{1-x}$ graded layer 14 is improved (note lines 54-56 in column 4 and lines 6-12 in column 5 of Fitzgerald et al.)

Allowable Subject Matter

4. Claims 36, 40, 41, 43-54 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
